Hi John, yes, that, with the template provided, will replace the old requirements. But I think I will formalize this in writing to them also, to clarify and document. Thanks!

Best,
Diolina

Dear Ms. Diolina,

Greetings.....

As per initial discussion, the document required by the PMG are as follows:

1. Process Workflows and System Narratibves or Use Cases
2. Documentation on Existing and intended System Interfaces
3. Operating Procedures or Operations Manuals
4. System Administration Documentaiton
5. Database Administration Guides
6. Database entry-relationship diagrams (ERD) and Schema

My understanding now, is that these will be replaced with:

1. Technical Requirements Specification (TRS)
2. User's Manual
3. Application Maintenance Manual (AMM)

Kindly advise.

Thank you and Regards,

John Erazo

Dear Yoshino-san, Brian and John,

Forwarding to you the documents we need to furnish for turnover. I think this is much simpler and fewer than what TMG initially asked. For your action please. Thanks.

Best,
Diolina
